

FUTURE NEXT ADOPT a Grandparent

Community Outreach Program held at

Charles County Nursing Rehabilitation Center located in LaPlata, Maryland

2011- 2012 School Year

FNC Middle & High School Students part of the “Leaders In Action Program” (LIA) Volunteering and Giving back to their community! We had a blast hanging out with the seniors at CCNRC one student said! It was especially special for us to know that some seniors hadn’t had visitors in over 1 year. Community Outreach programs like this helps students understand the importance of inspiring others and encouraging hope. Giving of yourself without expecting nothing in return but a gratifying heart of giving and knowing you were able to help. One student says it’s an amazing experience to know you put a smile on someone face and inspired them to look forward to another day.
